

Hanoi University of Mining and Geology
VIETNAM

Chulalongkorn University
THAILAND

Proceedings of Workshop on
MINING ENVIRONMENTAL PROBLEMS AND PROTECTION
Future Collaboration between
VIETNAM - THAILAND

Hanoi, May 6th- 8th, 2009

CHI HỘI MỎ PHÍA NAM

BACH KHOA, HA NOI PUBLISHING HOUSE

Address: N^o 1, Dai Co Viet, Ha Noi

Tel: (84 - 4) 38684569; 22410605; Fax: (84 - 4) 38684570

Director: **Le Cong Hoa**

Chief Editor: **Tong Dinh Quy**

Edited by: Bui Xuan Nam

Coved by: Pham Thi Lien

Printed at: BachKhoa - HaNoi Publishing House.

Quantily: 100 copies. Size: 19 × 27 cm. Registration No: 112-2009/CXB/01-06/BKHN, by Director of BachKhoa Publishing House. Archived: 5/2009.

Proceedings of workshop on MINING ENVIRONMENTAL PROBLEMS AND PROTECTION - FUTURE COLLABORATION BETWEEN VIETNAM AND THAILAND

May 6th- 8th, 2009
Hanoi, Vietnam

Chulalongkorn University

Faculty of
Engineering,
CHULALONGKORN
UNIVERSITY,
THAILAND

ORGANIZING COMMITTEE

Assoc.Prof. Dr. Tran Dinh Kien
Assoc.Prof. Dr. Nguyen Truong Xuan
Dr. Nguyen Phu Vu
Assoc. Prof. Dr. Pinyo Meechumna
Dr. Sunthorn Pumjan
Dr. Bui Xuan Nam
Dr. Le Hai An
Assoc. Prof. Dr. Nguyen Quang Luat
Prof. Dr. Vo Trong Hung
Dr. Dang Vu Chi
MSc. Dinh Thi Xuan

EDITORIAL COMMITTEE

Assoc. Prof. Dr. Pinyo Meechumna
Dr. Sunthorn Pumjan
Dr. Le Hai An
Dr. Bui Xuan Nam
Dr. Nguyen Quang Minh
Dr. Pham Van Tuan
Dr. Phan Quang Van
M.Eng. Nhu Thi Kim Dung

SECRETARIATS

INTRODUCTION

According to the exploration results, there are over 60 kinds of minerals has been discovered in Vietnam, among them the most potential ones having large resources are coal, bauxite, building materials, and oil and gas. Mining industry, therefore, always plays a key role in Vietnam.

Thailand is a member of ASEAN family with advanced mining industry, especially state-of-the-art techniques, technologies and equipment in mining sectors.

Mining environmental protection and sustainable development are at all times the major concerns in not only Thailand and Vietnam but also in other ASEAN countries.

The seminar is a good opportunity for scientists, researchers and managers between Vietnam and Thailand to present their researches, advances, and to share experiences in mining environmental problems and protection as well as future collaboration programs among faculties in particular and two universities in general within a friendly environment.

ORGANIZERS

- Hanoi University of Mining and Geology, Vietnam
- Chulalongkorn University, Thailand

SPONSORS

- Ministry of Education and Training of Vietnam
- Chulalongkorn University, Thailand

MAJOR THEMES

1. Problems and solutions to minimize environmental impacts in:
 - Mining Engineering
 - Petroleum Engineering
 - Mineral Processing
 - Waste Management
2. Future collaboration between Vietnam and Thailand in training and scientific research.

CHI HỘI MỎ PHÍA NAM

CONTENTS

Features on mineral water quality and quantity in km9 Quang Hanh, Quang Ninh	1
<i>Do Van Binh</i>	
Suggesting some effective measures for oil spill prevention, oil removal in Vietnam	12
<i>Le Dinh Chien, Le Hai An</i>	
Evaluating causes and impacts of oil spill incidents in Vietnam	17
<i>Le Dinh Chien, Nguyen Thi Binh, Pham Trung Kien</i>	
The use of aggregate stemming material and its role in reducing the blasting impacts on surface mining	25
<i>Pham Van Hoa, Carsten Drebenstedt</i>	
Technology of treating Quang Ninh low quality coal to gather clean coal and prevent environment pollution	32
<i>Pham Huu Giang, Nhu Thi Kim Dung</i>	
Some problems on the research and development on the application of the methane draining boring technology to prevent hazards in underground coal mines in Vietnam	40
<i>Tran Dinh Kien, Pham Quang Hieu, Nguyen Xuan Thao, Nguyen Tran Tuan</i>	
Rock salt production from Northeastern Thailand	50
<i>Pipat Laowattanabandit, Pinyo Meechumna</i>	
Pilot project of dust suppression system for aggregate crushing plant in Thailand	65
<i>Pinyo Meechumna et al</i>	
Environmental issues of surface coal mining in Quangninh	73
<i>Bui Xuan Nam, Nguyen Phu Vu</i>	
Research on non-blasting mining method for limestone quarries in Vietnam	85
<i>Bui Xuan Nam, Nguyen Phu Vu, Nguyen Thanh Trung</i>	
Research on System of treating mining waste water by KABENLIS compound to protect mining environment	94
<i>Le Ngoc Ninh, Nguyen Phu Vu, Doan Trung Sy</i>	
Emission standard and treatment method of emission gases in Dung Quat refinery	99
<i>Pham Xuan Nui</i>	

Resource recycling and green economy	104
<i>Leepowpanth Quanchai</i>	
Non-cyanide depression of sphalerite for Cho Dien lead-zinc ore flotation	114
<i>Nguyen Hoang Son</i>	
Effect of mobility ratio on oil recovery factor for horizontal water injectors and oil producers	119
<i>Komsant Suriyawutithum, Suwat Athichanagorn</i>	
Reliability techniques on slope and foundation excavations	129
<i>Sanga Tangchawal</i>	
Evaluation of gas recycling and CO₂ injection processes in gas condensate reservoirs	140
<i>Phakphum Tangkaprasert, Suwat Athichanagorn</i>	
Occupational safety and health in mining industry in Vietnam: causes and solutions	153
<i>Nguyen Anh Tho, Bui Xuan Nam</i>	
Development of the Thach Khe iron mine: A review of the environmental and technological challenges	158
<i>Mai The Toan, Ho Si Giao</i>	
Bauxite mining industry, alumina and aluminum production in Tay Nguyen - potential and challenges	164
<i>Mai The Toan, Nghiem Viet Hai</i>	
Practical research on the topic of the gas drainage from anthracite coal seams in Quangninh - Chance for the cooperation between Vietnam and Germany	176
<i>Phan Quang Van, Heribert Meiners, Tran Van Thanh, Carsten Drebenstedt, Nguyen Anh Tuan</i>	
The generalization of the risks in underground coal mining and risk assessment methods at the environmental workplace	191
<i>Phan Quang Van, Hoang Xuan Vu</i>	
Investigating EOR potential of WAG scheme in a mature waterflooded field	200
<i>Varoon Vongsinudom, Kawin Intrachai, Waanapong Ratawessanun, Suwat Athichanagorn, M. K. Hamdan</i>	
Thailand's energy policy and CDM opportunities	208
<i>Wiwattanadate Dawan</i>
